Internet

The Internet is a very exciting thing for everyone. But it can be dangerous. Some people use the Internet to be unkind to people.

It is our job to make sure that does not happen. So always be careful when using it.

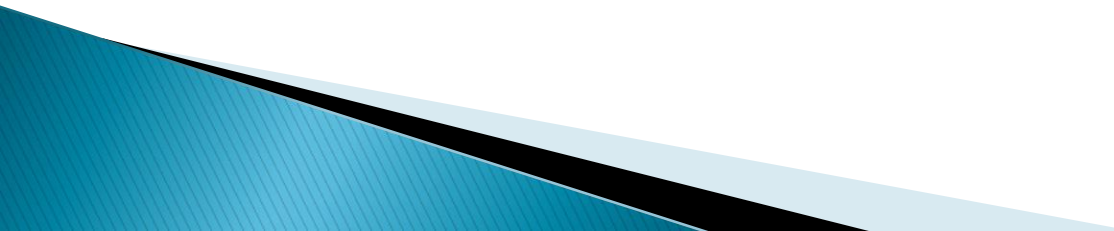

Do any of you go on stuff like these?

- ▶ Minecraft
- ▶ Fortnite
- ▶ Roblox
- ▶ Rocket League
- ▶ Youtube

Cyberbullying

- ▶ Cyberbullying can happen on many occasions.
 - ▶ People can use bad language on chat in some games like Minecraft.
 - ▶ So if you, or a friend of yours gets cyberbullied, don't hesitate. Report it to Childnet or Thinkuknow or other websites. You can also report cyberbullying to the police.
- 

S is for Safe and M is for Meet

- ▶ You must always be safe online. Never give away passwords or addresses as this can lead to burglaries.

So when playing on a server such as Minecraft or Hypixel, keep in mind that some players are not who they claim to be. If you are playing with a friend and you know it is them, that is fine.

Accepting , Reliable and Tell

- ▶ Accepting emails from people you don't know can be dangerous. One virus in one email could wipe out a million computers or more.
- ▶ Note to yourself some websites may not have reliable information. To see if it is reliable, check when it was last updated. If it is over 7 years ago, it is not reliable. Childnet and Thinkuknow are great places to tell of any worries you may have to do with e-safety.

Thanks for
Listening!!

"That's all Folks!"
